

Do I qualify for an investigational seizure drug trial?

Mark "Yes" or "No" below to each question:

- | Yes                      | No                       |  |
|--------------------------|--------------------------|--|
| <input type="checkbox"/> | <input type="checkbox"/> | I have uncontrolled epilepsy or ongoing seizures despite medication.     |
| <input type="checkbox"/> | <input type="checkbox"/> | I take one or more medications for seizures.                             |
| <input type="checkbox"/> | <input type="checkbox"/> | I have the Vagus Nerve Stimulator (VNS) as part of my seizure treatment. |
| <input type="checkbox"/> | <input type="checkbox"/> | I have been told before that I am unable to have seizure surgery.        |
| <input type="checkbox"/> | <input type="checkbox"/> | I have tried more than one seizure medication to treat my seizures.      |

\*If you answered yes to one or more of the questions above, you may be eligible for a clinical drug study. Please contact the Research Office at the Texas Epilepsy Group/Neurological Clinic of Texas, PA by calling 972.566-7690 or 972.566-8838 for more information on investigational medications.
